

¹
a [Please amend claim 3 to read as follows:]

Claim ~~3~~² (Amended) The computer program product of claim ~~2~~¹, and further including:
code for a weighting operation wherein a weight is assigned to a detected security breach.

Please delete claim 4.

Please amend claim 5 to read as follows:

Claim ~~5~~³ (Amended) The computer program product of claim ~~2~~¹, and further including:
at least one detect operation performed by the codes on the computer readable medium wherein a computer security breach is detected; and
a weighting operation performed by the codes on the computer readable medium wherein a weight is assigned according to the importance of the security breach.

²
a [Please amend claim 6 to read as follows:]

Claim ~~6~~⁴ (Amended) The computer program product of claim [5] ~~2~~¹, and further including:
a react operation wherein said firewall is reprogrammed in real time to react to the security breach.

[Please amend claim 7 to read as follows:]

Claim ~~7~~⁵ (Amended) The computer program product of claim ~~2~~¹, and further including:
at least one detect operation performed by the codes on the computer readable medium wherein a computer security breach is detected; and
a react operation performed by the codes on the computer readable medium wherein said firewall is reprogrammed in real time to react to the security breach.

[Please amend claim 8 to read as follows:]

Claim ⁶~~8~~ (Amended) The computer program product of claim ¹~~2~~, wherein:

said react operation reprograms said firewall according to an assigned weight, the assigned weight being a function the type of security breach detected.

[Please add the following new claim 9:]

Claim ⁷~~9~~ (New) The computer program product of claim ¹~~2~~, wherein:

the wide area network is the internet.

[Please add the following new claim 10:]

Claim ⁸~~10~~ (New) The computer program product of claim ¹~~2~~, wherein:

the local area network is an Ethernet local area network.

23
[Please add the following new claim 11:]

Claim ⁹~~11~~ (New) The computer program product of claim ¹~~2~~, wherein:

the classification of the attempted security breach includes a factor relating to the importance of a portion of the local area network which the attempted security breach attempts to access.

[Please add the following new claim 12:]

Claim ¹⁰~~12~~ (New) The computer program product of claim ¹~~2~~, wherein:

the classification of the attempted security breach includes a factor relating to the number of attempts made in the course of the attempted security breach.

[Please add the following new claim 13:]

Claim ¹¹~~13~~ (New) The computer program product of claim ¹~~2~~, wherein:

the classification of the attempted security breach includes a factor relating to the relative sophistication of the attempted security breach.
